

AFRICAN INSPIRED | AMERICAN MADE

CHEF ABCOS

Abdirahman Ahmed, AKA Chef Abcos, is an entrepreneur, an educator, and a passionate chef of East African Cuisine.

With experience in the food and IT industries, Chef Abcos brings a holistic and systemic knowledge to the restaurant business. At the heart of his experience, however, is his love for Somali cuisine, which unites and promotes a multitude of cultures in every dish.

Before starting Afra Grill, Chef Abcos helped create Safari Restaurant & Event Center in Minneapolis. Much of the Somali community in Minneapolis immigrated due to political turmoil and civil wars back home. Safari offered the Minneapolis Somali community a place that would remind them of home, through a menu of authentic dishes that would temper their homesickness.

Chef Abcos is excited to bring his vision to the Columbus community. He envisions Afra Grill to be a gathering place for people who are looking for fresh, healthy and convenient food. Chef Abcos has ensured that Afra Grill will provide something for everyone.
